

Schools and Health Care Systems Reflect and Act Worksheet

Parents of children with chronic conditions must often get their child's special needs met in large systems such as schools or health clinics or hospitals. Use this worksheet to brainstorm ways to effectively work with one of these large systems.

What is a specific challenge that you are experiencing right now with one of these systems?

What strategy would help you deal with this challenge or situation?

Describe 2 or 3 steps you need to take to implement this strategy:

After trying it out, how did it work for you? Is there anything you would change about it to make it easier?
